

## Welcome to electronica China!

electronica China is one of the leading innovative platforms for electronic components, systems, applications and solutions. The fair takes place in conjunction with productronica China and presents the entire value chain of the electronics industry. Being also co-located with LASER World of PHOTONICS China and SEMICON China creates attractive synergies and added value for visitors. The four fairs provide insights into the latest technologies and applications in all electronics sectors as well as the photonics industry.
